

The Ultimate Media Pack
ULTIMATE JET
2021

✈️ **ULTIMATE JET IN 1000 WORDS.**

Brand consistency to grow audiences at scale. This often becomes more difficult as your workload increases, especially if you have to outsource tasks to maintain productivity.

Your brand needs to speak to users in the same voice in every piece of content you create. How? In every campaign, ensure that your brand is recognizable and that every message reflects your values.

This year, you may have the chance to expand into new markets or access new audiences. Before you choose to act on these new opportunities, you will need to ensure they fit with your brand principles.

When it comes to delivering exclusive content, it's not hard to understand the advantages of Ultimate Jet over our competitors.

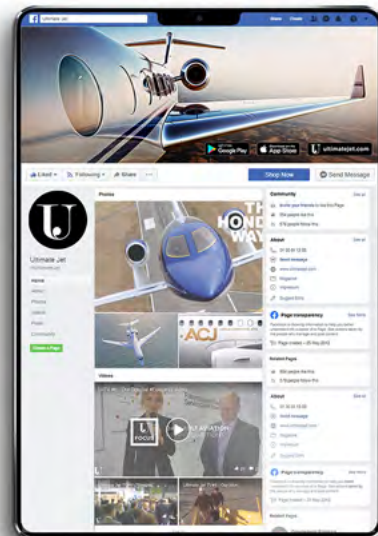

WE WIN THE HEARTS OF OUR AUDIENCE THROUGH CONTENT:

#1 ULTIMATE JET OFFERS STORIES YOU CAN'T GET ELSEWHERE

#2 ULTIMATE JET PROVIDES A UNIQUE VOICE

Ultimate Jet is the go-to brand for business aviation, producing immersive content through multiple platforms - digital, print, video, custom publishing, creative services, events, & social media.

Yachts and helicopters: a matter of size ...
Yachts et hélicoptères : une question de taille...

© Alpark

MICHEL SEFFEY
MANAGING DIRECTOR

More and more yacht owners want a helipad to be integrated right from the design of their new little gem. For some, this represents a true asset to their image, for others, an interesting added value of resale.

But for many, having a helicopter is a necessity in difficult environments or a key element of safety.

The example of large expedition ships, where the helipad is standard equipment, has led to the development of helipads on smaller private boats. The certification of a helipad is a major feature of the yacht's design. Fully certified helipads are recognized around the world and can be used for commercial purposes. Private helipads obey less stringent certification rules.

Safety, including compliance with obstacle clearance, is a key factor in the operation of an on-board helipad. The preparation of the deck, by releasing it completely from all unsecured objects before each landing and taking off, is a binding obligation. The main discussions around the use of an onboard helicopter relate to safety, convenience and available space.

De plus en plus de propriétaires de yachts demandent qu'un hélicoptère soit intégré dès la conception de leurs nouveaux bijoux. Pour certains, cela représente un atout indispensable à leur image, pour d'autres, une plus-value supplémentaire considérable de revente.

Mais pour beaucoup, pouvoir disposer d'un hélicoptère dans des environnements difficiles est une nécessité ou un élément impératif de sécurité.

L'exemple des grands bateaux d'expédition, où l'hélicoptère est un équipement standard, a entraîné le développement des hélicoptères de moindre taille sur des bateaux privés plus petits. La certification d'un hélicoptère est une caractéristique majeure de la conception du yacht. Les hélicoptères entièrement certifiés sont reconnus dans le monde entier et peuvent être utilisés à des fins commerciales. Les hélicoptères privés obéissent à des règles de certification moins strictes.

La sécurité, notamment le respect du franchissement d'obstacles est un facteur-clé des opérations aux abords d'un hélicoptère embarqué. La préparation du pont, en le débarrassant totalement de tous les objets non sécurisés avant tout atterrissage et décollage, est une obligation contraignante. Les principales discussions autour de l'utilisation d'un hélicoptère embarqué portent sur la sécurité, la commodité et l'espace disponible.

Back in time

Lady Moura is one of the largest private yachts in the world. It was commissioned nearly 30 years ago and remains today in many ways, at the cutting edge of technology. This is one of the very first yachts to have been equipped with a fully certified helipad. Located on the upper deck, it is equipped with a fixed foam fire extinguisher and has hydraulic platforms that protect the lower decks from the rotor wash. Takeoffs and landings produce minimal disruption and the helipad has been used continuously for years as part of the normal operation of the yacht. (Photos to follow). The helicopter, a Sikorsky S-76 C ++, regularly connects local landing sites and the boat. There is no hangar on the Lady Moura but as it sails most often in the Mediterranean, a satisfactory arrangement has been found for the helicopter to remain on board during the trips and be stored in a hangar on the ground during extended stays in stopover.

Retour dans le temps

Le Lady Moura est l'un des plus grands yachts privés au monde. Il a été mis en service il y a près de 30 ans et reste encore aujourd'hui à bien des égards, à la pointe de la technologie. C'est l'un des tout premiers yachts à avoir été équipé d'un hélicoptère entièrement certifié. Situé à l'arrière, sur le pont supérieur, il est équipé d'une installation fixe d'extinction à mousse et dispose de plateformes hydrauliques qui protègent du souffle les niveaux inférieurs. Les décollages et les atterrissages produisent un minimum de perturbations et l'hélicoptère est utilisé de façon continue depuis des années dans le cadre de l'exploitation normale du yacht. (Photos à suivre). L'hélicoptère, un Sikorsky S-76 C ++, relie régulièrement les sites d'atterrissage locaux et le bateau. Il n'y a pas de hangar sur le Lady Moura mais comme il navigue le plus souvent en Méditerranée, un arrangement satisfaisant a été trouvé pour que l'hélicoptère reste à bord au cours des déplacements et soit stocké dans un hangar à terre durant les séjours prolongés en escale.
